MEDI-CROSS
MEDI-CROSS

100 Medical Terminology Crossword Puzzles
for Pre-Med, Medical, and Nursing Students,
EMTs, Massage Therapists and Other Health Care Professionals and Crossword Lovers

John McLeod

Universal-Publishers
Boca Raton
This book is dedicated to my father, Joseph Clifford McLeod, who taught me about determination and perseverance and not giving up when the going gets tough. May he be looking down upon me with pride.

I would also like this book to be an inspiration to my son Michael to show him that when you have a dream, you can accomplish anything, if you really believe in it.
INTRODUCTION

Thank you for your interest in Medi-Cross crossword puzzles. This book is intended as a tool for those whose interests are in the sciences of the human body and science in general. It will help to expand individual vocabulary with regards to medical terminology in a crossword puzzle format.

You will find some of the answers easy and some very difficult. There will also be repetition of some of the shorter words (this could not be helped) throughout various puzzles but I think you will find the puzzles interesting and educational.

My own experience in creating these puzzles has greatly expanded my vocabulary and helped me understand many long medical terms and how they were created.

Since the main purpose of this book is to learn, feel free to check the answers pages if you are stuck on a word and then carry on. This is the way I started doing crosswords years ago and I still do it today because I am always determined to finish a puzzle I have started. Have fun!
Across
1. ____ent; adept
5. Diaphysis
10. Minute opening of the skin
14. ____ toe; hallux varus
